Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notification and Notices Issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs

Calcutta, the 2nd February 1963

CORRIGENDUM

In the Gazette of India, Part III, Section 2, dated the 3rd November 1962—

In page 389, Column 2, under the heading 'Cessation of Patents'—

Delete No. "63251".

Calcutta, the 2nd February 1963

Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

The 14th January 1963

- 86012. S. T. David. Rotary compressors and exhausters.
- 86013. C. R. Reddi. Domestic sugar container with automatic regulator.
- 86014. Westinghouse Electric Corporation. Ultrasonic generator.
- 86015. Ernst Jacobi & Co. Kg., A suction tube for drawing off broken threads for spinning frames and the like.
- 86016. The Cleveland Crane & Engineering Company. Apparatus for shearing materials.
- 86017. William H. Rorer, Inc. Anti-inflammatory, anti-edema and anti-thrombi drug.
- 86018. G. K. N. Steel Company Limited. A new or improved method of and apparatus for charging open-hearth furnaces. (24th January, 1962).
- 86019. Miles Laboratories, Inc. Improved diagnostic composition.
- 86020. The Bahnson Company. Rotating eliminator.
- 86021. The Distillers Co. Ltd. Pharmaceutical composition containing- α -phenylphenoxymethylpenicillin and salts thereof. (18th October 1960). [Divisional date 25th September 1961].
- 86022. Imperial Chemical Industries Limited. Herbicides. (22nd January 1962).
- 86023. Fisons Pest Control Limited. Chemical compounds. (22nd January 1962).
- 86024. Stanton and Staveley Limited. Improvements in and relating to pipe joints. (7th March 1962).

- 86025. Fabrique d'horlogerie Chs. Tissot & Fils S.A. Lever pallet for timepieces.
- 86026. Rolls-Royce Limited. Improvements to gas driven railway locomotive. (18th January 1962).
- 86027. Rolls-Royce Limited. Improvements to gas driven railway locomotive.
- 86028. West Point Manufacturing Company. Non-woven fabric and method of manufacturing the same.
- 86029. R. Wehinger. Process and device for the manufacture of structural plates.
- 86030. Sandoz Ltd. Basic dyes and their production. [Addition to No. 81842].
- 86031. Sandoz Ltd. Basic dyes and their production. [Addition to No. 81842].
- 86032. Sandoz Ltd. Basic Dyes and their production. [Addition to No. 81842].
- 86033. Automatic Telephone & Electric Company Limited. Improvements in or relating to electromagnetic relays. (23rd January 1962).
- 86034. C. S. Rao. Improvements in or relating to locomotive track rail.
- 86035. The Fancy Silk & Smallware Weaving Mills Ltd. Improved form of belt for use by military and police etc.
- 86036. Vijay Scientific and Surgical Co. An improved device for cervical traction.
- 86037. N. Subramoney. The manufacture of an insecticidal soap with a wide range of control on plant pests especially of the aphid type.

The 15th January 1963

- 86038. Atomic Energy Establishment Trombay. Precision liquid level telemeter.
- 86039. The British Drug Houses Limited. Organic compounds. (26th January 1962).
- 86040. Atlas Copco Aktiebolag. Improvements in two stage screw rotor machines.
- 86041. Society Progil. Halo-aryl sulphides.
- 86042. Union Carbide Corporation. Electric lamps.
- 86043. J. R. Geigy A-G. Process for the production of acylamino-1, 4-benzo-quinones.
- 86044. Glaverbel. Process and furnace for the melting and the elaboration of vitreous or other products.
- 86045. Olin Mathieson Chemical Corporation. Peptides.
- 86046. Westinghouse Branke and Signal Company Limited. Improvements in automatic slack adjusters for brakes. (15th February 1962).

86047. Lepetit S.p.A. A machine for the dosage and bottling, in sterile environment, powders, and particularly of drugs.

86048. Socony Mobil Oil Company, Inc. Steam activated catalyst. [Addition to No. 80522].

86049. Pirelli Società per Azioni. Improvements in or relating to pneumatic tyres for vehicle wheels.

86050. Tokyo Shibaura Electric Co. Ltd., Flash lamps.

86051. Ashland Oil & Refining Company. Method of operating a blast furnace.

86052. The Plessey Company Limited. Improvements in or relating to pumps and motors having intermeshing motors.

86053. Sandoz Ltd. Improvements in or relating to organic compounds. (16th January 1962).

86054. Union Carbide Corporation. Adherent thermoplastic materials having decorative, protective, structural and bonding utility and structural elements comprising the same.

86055. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Composition containing novel benzophenone derivatives. [Divisional date 17th June 1961].

86056. R. Mizrahi and Avney Chen Limited. Device for the machining of raw minerals.

86057. Inventa A. G. Fur Forschung Und Patentverwertung. Process for the manufacture of cyclododecane derivatives.

86058. P. F. Shah. Relating to weaving of fabrics with figures of extra warp which resemble embroidered effects.

86059. V. P. Mathur. Improvements in and relating to file clips.

The 16th January 1963

86060. K. V. Pandit. An audiovisual instrument for timing music.

86061. C. R. B. Menon. Improvement of the preparation of molasses for transport and for other purposes such as its use as cattle feed.

86062. Koppers Company, Inc. Improvements in or relating to a process and apparatus for melting hydrate crystals.

86063. H. H. Patel. Pipe and pipe couplings of low thermal conductivity.

86064. Mr. Samarendra Amar Misra, Miss Anjali Misra and Miss Shyamali Misra. Relating to intermediate, tertiary, shift configurations on typewriters and like machines.

86065. S. Pietro. An improvement in the devices for opening the hermetically sealed cans.

86066. Canadian Ingersoll-Rand Company. Limited Centrifugal thickener for paper pulp.

86067. Imperial Chemical Industries Limited. Production of tetrafluoroethylene. (24th January 1962).

86068. United States Rubber Company. Improvements in chemicals.

86069. Sperry Rand Corporation. Information storage device.

86070. Tootal Broadhurst Lee Company Limited. Improvements in and relating to the treatment polymeric materials. (19th January 1962).

86071. Ciba Limited. Manufacture of basic ethers.

86072. F. T. Products Limited. Improvements in and relating to self locking stay mechanisms. (17th January 1962).

86073. Universal Moulded Fiber Glass Corporation. Fabrication of articles composed of fibrous reinforced resin material.

86074. Robert Bosch G.m.b.H. Improvements in or relating to a moulding process and apparatus.

86075. K. Hertel. Fastening of a cutting body made of hard metal or of a ceramic cutter material to a tool shank.

86076. F. Hanselmann. Windshield cleaning device.

86077. C. F. Boehringer & Soehne G.m.b.H. Process for the preparation of D-fructose. (9th November 1962).

The 18th January 1963

86078. S. Khan. Improvements in or relating to moulded plug-pins or the like for electric cords.

86079. Celanese Corporation of America. Resin compositions.

86080. The Hindustan Vacuum Glass and Metal Industries Ltd. Improvements relating to vacuum tumbler.

86081. K. Fischer. Electric radiant hot plate.

86082. K. Fischer. Arrangement for regulating the supply of heat near the boiling point when using electric hot plates.

86083. International Business Machines Corporation. Improved mechanical counter.

86084. Baxter Laboratories, Inc. Treatment of blood.

86085. The Goodyear Tire & Rubber Company. Improvements in method of processing tire cords, tire cord fabric, and the like.

86086. Scientific Design Company, Inc. Chemical process.

86087. Continental Can Company, Inc. Improvements in and relating to closure caps.

86088. The Firestone Tire & Rubber Company. Process and products.

86089. Gebr. Bohler & Co. Aktiengesellschaft. Improvements in or relating to drilling cars.

86090. Yawata Iron & Steel Co. Ltd. Improvements in or relating to feeding apparatus for powdery materials in sintering machine.

Alteration of Date

79457. The claim to priority date 26th November 1960 has been disallowed and the application dated as of 22nd November 1961, the date of filing in India.

85152. Ante-dated to 25th July 1961 under Section 5 of the Act.

85530. Ante-dated to 20th July 1961 under Section 5 of the Act.

Alteration of Date

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of the Gazette of India give notice to the Patents Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta, in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawing, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

76515. Council of Scientific and Industrial Research. A process for the conversion of oilseeds to a material particularly suited for aqueous extraction of protein and oil. Accepted on 16th January 1963.

Flaking oilseeds e.g. in roller mill at ordinary temperature (25°C to 35°C).

76516. Council of Scientific and Industrial Research. Improvements in or relating to the process of manufacture of protein and oil from groundnuts and other oil seeds. Accepted on 16th January 1963.

Nuts with optimum moisture content (8—12%) and flaked, agitated with alkaline water and fibrous matter filtered off on a wire mesh.

76517. Council of Scientific and Industrial Research. Improvements in or relating to the process of manufacture of protein and oil from groundnuts and other oil seeds. Accepted on 16th January 1963.

The material is flaked and extracted with aqueous alkali and then the extract is centrifuged to separate the oil fraction, and the sludge from the protein solution, the later being acidified to precipitate protein.

76615. Paul Bros. & Co. Improvements in or relating to embossing machine. Accepted on 8th January 1963.

With surface of the sheet to be engraved passing between engraved roller and co-acting roller is covered to a desired width by a non-metallic tube slipped over the coacting roller, and with means for raising or lowering the co-acting roller vertically in relation to engraved roller.

76682. Council of Scientific and Industrial Research. A process for the recovery and purification of anthracene, carbazole and phenanthrene and allied chemicals from coal tar fractions in highly concentrated or pure state. Accepted on 16th January 1963.

Dissolving in lower aliphatic acid solvent for components other than anthracene i.e. formic, acetic or butyric acid.

76690. Alco Chemical Corporation. A latex composition for the treatment of soil. (23rd May 1960). Accepted on 15th January 1963.

Comprising 0.5 to 10% of water insoluble rubber and 0.005 to 0.5% of water-soluble counter-penetrant for the rubber.

76782. Standard Telephones and Cables Limited and Automatic Telephone & Electric Company Limited. Improvements in or relating to telecommunication exchange systems. Accepted on 16th January 1963.

In which a subscriber's storage device is individually allocated to each subscriber's line, a common set of transfer storage devices is provided, testing circuits are provided and control circuits are provided.

76959. Maschinenfabrik Buckau R. Wolf Aktiengesellschaft. Method and extraction plant for the extraction of soluble matters from solid vegetable, animal or inorganic matters. Accepted on 16th January 1963.

Liquid carried in counter-current direction through series of cells is kept in turbulent motion in each cell, part of mixture drained to next cell, while part of this filtered liquid is returned to original cell

77020. Snia Viscosa Societa' Nazionale Industria Applicazioni Viscosa S.p.A. Process for preparing polyamides having improved resistance to the light. Accepted on 15th January 1963.

By adding to the polyimide forming monomer acetyl- ϵ -aminocaproic acid and the manganese salt thereof.

77152. Koopers Company, Inc. Improvements in or relating to anthraquinone dyestuffs and aromatic polyester fibres colored therewith. Accepted on 15th January 1963.

A dihydroxy-dinitroanthraquinone is condensed with a primary arylamine and the nitro condensation product is reduced to a hydroxylamino group which is condensed with formaldehyde.

77554. Spencer Chemical Company. Novel ethylene-alkyl acrylate copolymers and process of preparing the same. Accepted on 10th January 1963

Introducing in a concurrent and continuous manner alkylacrylate and ethylene in molar ratio of upto 0.035 mols maintaining uniform admixture, carrying out reaction in presence of catalyst, pressure and temperature of 200°F to decomposition point.

77563. J. R. Geigy A.-G. Process for the production of new sulphonamides. Accepted on 11th January 1963.

Reacting a 3-(4-halo-3'-halosulphonyl-benzoyl) α picolinic acid with ammonia or a primary amine.

77608. W. R. Schmitz. Improvement in gelyarn cake purification machine. Accepted on 14th January 1963.

Pressure operated diaphragm pressing against sealing member, internal hydraulic pressure in cake forces solution or gas through its body only.

77609. W. R. Schmitz. Diaphragm seal. Accepted on 14th January 1963.

Placed between flanges provided at the ends of the two conduits and comprising a hollow annular ring provided with an inlet through which air or other fluid under is introduced into the diaphragm under pressure.

77647. Kalle Aktiengesellschaft. Process for the production of water soluble mixed cellulose allyl ethers which can be cross-linked. Accepted on 15th January 1963.

By mixing alkali-cellulose with alkylene oxide in presence of strong alkali.

77659. Shell Internationale Research Maatschappij N. V. Process for the stabilization of polymers of unsaturated aldehydes and their derivatives. Accepted on 15th January 1963.

Comprising in a polymer or its derivative is mixed with an epoxide containing at least one vice-epoxy group.

77670. North British Locomotive Company Limited. Bogie for a rail vehicle. Accepted on 18th January 1963.

Comprising a bogie frame, a transverse bolster spring means interposed between the bolster and the bogie frame and links connected at one end of the bolster and at another to the vehicle frame.

77677. N. Okura. Wheels for wheel conveyors. Accepted on 15th January 1963.

Comprising two annular boards having two pairs of periferal members, a contact tyre member a periphery and a number of ball bearings.

77678. N. Okura. Direction changing means for transportation. Accepted on 16th January 1963.

Axial rods pivoted to a stand rotatably and secured to the lower end of each of movable frame members on which a rotary wheel is rotatably journalised respectively.

77680. I. R. C. Limited. Improvements in and relating to reservoirs of writing and other dispensing instruments. (30th July, 1960). Accepted on 18th January 1963.

Bore in reservoir, along which the follower sides preferably of non-capillary size, has sealing liquid in clearance around followers; means exerting an follower a force opposing as movement as liquid is discharged and increasing with distance travelled by it; discharge conduit leading rear end of bore opposite to follower travel.

77681. I. R. C. Limited. Improvements in and relating to reservoirs of writing and like other dispensing instruments. (30th July 1960). Accepted on 16th January 1963.

Follower or piston is also provided with a liquid sealed capillary expansion duct, connecting with gas chamber for accommodating expansion and contraction of the trapped gas.

77682. Scientific Design Company, Inc. Method of cleaning apparatus having a deposit thereon of crude maleic acid and tars. Accepted on 18th January 1963.

By contacting the deposit of crude maleic acid and tars with liquid maleic anhydride.

77686. Maschinenfabrik Augsburg-Nurnberg A.G. Vibration damper. 15th January 1963.

Includes two reciprocally or axially movable damper parts and the striking surface on which adjustable pressure is applied is provided by a casing.

77773. Pulp & Paper Research Institute. Process for the continuous production of pulps from fibrous plant material. Accepted on 16th January 1963.

Plant material is impregnated with pulping liquor at a temperature below the reaction temperature and impregnated temperature is rapidly and uniformly raised with pressurised steam to solubilize the amorphous portion of the material.

77794. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Sulfonamides of the pyrimidine group and the preparation thereof. Accepted on 18th January 1963.

Condensing 4-Halo-5:6-Dialkoxy-pyrimidine with an alkali metal salt of a benzenesulfonyl amide.

78075. Deutsche Gold-Und Silber-Scheideanstalt Vormals Roessler. Process for the production of solutions of pure peracetic acid. (25th July 1961). Accepted on 16th January 1963.

Reacting hydrogen peroxide in molar ratio greater than 1, with acetic acid in presence of an acid catalyst.

78152. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to methods of continuously treating powders with liquids or gases. Accepted on 18th January 1963.

Treating the powder with a gas by conducting said along the inner wall of a space containing the gas by an endless conveyor belt to which a plurality of magnets are secured.

78170. N. V. Onderzoekingsinstituut Research. Improvements in or relating to the manufacture of threads, fibres, films, and the like from viscose. Accepted on 16th January 1963.

Wherein the viscose containing certain thioethers is spun in a bath in which the percentage of sulphuric acid is not more than 1.2 times that of alkali.

78360. Imperial Chemical Industries Limited. Process for the alkaline polymerisation of lactams. (13th September 1960). Accepted on 18th January 1963.

Polymerising a monomeric lactam in the presence of an alkali and a co-catalyst of the formula $R-X-C \begin{smallmatrix} \parallel \\ Z \end{smallmatrix} -Y-R$, where R and R₁ are hydrocarbon residue and X and Y each is O or S.

79132. Polymer Corporation Limited. Polymerization of butadiene. (19th November 1960). Accepted on 16th January 1963.

Polymerizing in the presence of $TiCl_4$ -I, organo-aluminium compound and an organic ether.

79180. Kabelschlepp G.m.b.H. Link chains intended to carry electric cables or the like. Accepted on 16th January 1963.

The chain is self supporting but deflectable in one direction characterised in that the individual interconnected chain links show a box-like cross section being closed on four sides.

79457. Mefina S. A. Sewing machine for producing stitches forming various designs. Accepted on 16th January 1963.

At least one of two elements (needle holder and feed device) subjected to action of control device adapted to locate the exact position where the needle passes through the fabric.

79817. Compagnie De Pont-A-Mousson. Improvements in and relating to control device for a molten metal pouring ladle in a centrifugal machine. Accepted on 16th January 1963.

Of the type including a hydraulic jack means adapted to tilt or rock the ladle about the rotational axis thereof.

80019. W. R. Grace & Co. Improvements relating to polymer-coated metal sheets. Accepted on 16th January 1963.

Cold rolling process comprises preparing a metal sheet by applying to or forming on the surface a coating of thermoplastic polymer and thereafter reducing the thickness of the sheet by cold rolling.

80340. G. B. & Company and Santosh Coomar Paul. Broad looms. Accepted on 18th January 1963.

Take-up motion separate but controlled by loom proper; one and each of the two yarn beams mounted on common stand; crankshaft driven by two independent motors at two ends of loom.

80408. Automatic Telephone & Electric Company Limited. Improvements in or relating to telephone exchanges particularly private automatic exchanges. (4th February 1961). Accepted on 14th January 1963.

With a manual board for calls requiring the assistance of an operator and having facilities for calling line identification on calls from its extension line circuits to the manual board.

81339. Preparation Industrielle Des Combustibles. Improvements in or relating to vacuum filter. Accepted on 16th January 1963.

Filtering surface is divided into a number of radial sectors and the blowing chamber for cake removal is movable and accompanies in its rotating motion the sector of the filtering surface.

85152. F. Hoffmann-La Roche & Co., Aktiengesellschaft. Compositions containing novel sulfonamides: [Divisional date 25th July 1961]. Accepted on 18th January 1963.

Comprising 4-sulfanilamido-5:6-dialkoxy-pyrimidine in admixture with a diluent or carrier.

85530. British Nylon Spinners Limited. Improvements in or relating to the manufacture of polyamide filaments. [Divisional date 20th July 1961]. Accepted on 18th January 1963.

Polycaprolactam chips washed with water and containing $\frac{1}{4}$ per cent by weight of water melted at 250° to 295°C under inert gas at 0.5 to 5 atmospheres pressure, maintained molten for predetermined time and extruding polyamide filaments.

Opposition Proceedings

(1)

The opposition entered by American Machine & Foundry Company to the grant of a patent on application No. 67874 made by The Electric Storage Battery Company and notified in Part III, Section 2 of the Gazette of India, dated 4th February 1961, has been settled amicably by the opponents and the applicants. A patent will be sealed on the said application subject to amendment of the specification.

(2)

An opposition has been entered by Goldstein Engineering & Trading Company Private Limited to the grant of a patent on application No. 75326 made by Simac Group (India) Private Limited.

(3)

An opposition has been entered by The Associated Cement Companies Limited to the grant of a patent on application No. 77921 made by Ciments Lafarge.

(4)

The application for patent numbered 71564 made by Thomas C. Keay Limited in respect of which an opposition was entered by Hindustan Bobbin Industries as notified in Part III, Section 2 of the Gazette of India, dated the 16th September 1961, has been treated as abandoned.

(5)

The opposition entered by Shimada Glass & Flask Factory (Private) Limited to the grant of a patent on application No. 73629 made by A. C. Padamsee as notified in Part III Section 2 of the Gazette of India dated the 21st July 1962 has been treated as abandoned.

Patents Sealed

59703. 69547. 71894. 73286. 73677. 73755. 73894. 73916. 74063. 74066. 74100. 74359. 74431. 74513. 74543. 74730. 74887. 74908. 74931. 74959. 74961. 74967. 74973. 75008. 75029. 75089. 75145. 75165. 75223. 75248. 75253. 75258. 75259. 75273. 75274. 75288. 75308. 75309. 75313. 75314. 75319. 75321. 75334. 75338. 75341. 75342. 75343. 75374. 75375. 75377. 75411. 75412. 75423. 75440. 75526. 75695. 75728. 75756. 75820. 75888. 76077. 76133. 76208. 76233. 76245. 76692. 76693. 76815. 77064. 77072. 77075. 77077. 78682. 79252. 80635. 80636. 80637. 80638. 80639. 80640. 80641. 80642. 80719.

Amendment Proceedings

The amendment proposed by American Cynamid Company in respect of Patent application No. 70120 as advertised in the Gazette of India, Part III, Section 2, dated the 6th October 1962, has been allowed.

Registration of Assignments, Licences, Etc.

Assignments, licences or other transactions affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interests:—
68556—Wahl Brothers.

Restoration Proceedings

Notice is hereby given that an application has been made under Section 16 of the Indian Patents and Designs Act, 1911 for the restoration of the following patent:

No. 46606—Vishnu Dutt Bhargava.

The patent ceased on the 25th January 1959 owing to non-payment of renewal fee within the prescribed time and cessation of the patent may be notified in Part III, Section 2 of the Gazette of India, dated the 9th May 1959. Any person may give notice of opposition to the restoration by leaving an application on Form 6 of the Indian Patents and Designs Rules, 1933, at the Patent Office, 214, Lower Circular Road, Calcutta-17, on or before the 16th March 1963.
